Company Overview

FieldMech Engineering and Construction LLP is a professionally driven industrial engineering and construction company specializing in mechanical construction, piping systems, structural fabrication & erection, plant maintenance, shutdown services, scaffolding, surface treatment, and industrial infrastructure solutions.

Founded with a vision to deliver dependable engineering services backed by global execution standards, FieldMech combines technical expertise, operational efficiency, and uncompromising safety practices to serve industries across India and international markets.

The company is built upon the extensive experience and industry credibility of its Founder & Chief Executive Officer, Mr. Lokesh Kumar, whose leadership in large-scale industrial and energy projects across Kuwait and the Middle East has shaped the foundation of FieldMech's operational excellence. With a strong focus on quality workmanship, project execution, and long-term client partnerships, FieldMech aims to become a trusted engineering partner for oil & gas, petrochemical, refinery, power, infrastructure, and manufacturing sectors.

Our Vision

To become one of India's most trusted and respected industrial engineering & construction companies by delivering world-class, safe, reliable, and cost-effective engineering solutions.

Our Mission

Deliver high-quality engineering and maintenance services with precision and reliability

Ensure timely project execution through skilled manpower and efficient planning

Continuously adopt modern engineering practices and sustainable solutions

Build long-term relationships through trust, transparency, and performance

Maintain the highest standards of safety, compliance, and operational excellence

Our Leadership

FieldMech Engineering and Construction LLP is led by Mr. Lokesh Kumar, a visionary entrepreneur and seasoned engineering professional with nearly two decades of experience in industrial engineering, mechanical construction, EPC projects, and infrastructure development across India and the Middle East. Before establishing FieldMech, Mr. Lokesh Kumar founded and successfully led L&N Engineering Company in Kuwait, transforming it into a reputed engineering and industrial services organization executing large-scale projects for major oil & gas, refinery, water treatment, and infrastructure companies.

Mr. Lokesh Kumar

(Founder & Chief Executive Officer)

Over the years, he has **successfully managed** and delivered complex engineering projects involving:

Mechanical construction
& piping systems

Structural fabrication
& erection

Electro-mechanical works

Plant shutdown
& maintenance operations

Industrial infrastructure
development

Operation
& maintenance services

Scaffolding, insulation,
blasting & painting solutions

Under his leadership, projects have been executed for prestigious organizations and industrial entities including:

Kuwait Oil Company (KOC)

OTV Veolia

AZN-O&M

GE Energy

Hyundai Heavy Industries

Joint Operations (JO)

Alghanim International

Kuwait Integrated Petroleum
Industries Company (KIPIC)

Kuwait National Petroleum
Company (KNPC)

Gulf Spic General Trading
& Contracting Company

China Harbour Engineering
Company

Our Core Services

Mechanical Construction Works

We undertake complete industrial mechanical construction solutions including equipment installation, alignment, utility systems, and heavy industrial mechanical works for manufacturing plants, refineries, and industrial facilities.

Scope Includes:

- Equipment installation
- Mechanical assembly
- Alignment works
- Utility systems installation
- Industrial maintenance support
- Heavy mechanical erection works

Piping Works

FieldMech provides comprehensive piping solutions for industrial plants and process industries, including fabrication, installation, hydro testing, and maintenance support.

Scope Includes:

- Process piping
- Utility piping
- Pipe fabrication & routing
- Hydro testing support
- Pipe erection & maintenance
- Carbon steel & stainless-steel piping systems

Structural Fabrication & Erection

We specialize in structural steel fabrication and erection services for industrial and infrastructure projects with a strong focus on precision, durability, and safety.

Services Include:

- Structural steel fabrication
- Pipe racks & industrial platforms
- Heavy structure erection
- Welding & reinforcement works
- Industrial sheds & support structures

Plant Maintenance Services

FieldMech offers preventive and corrective maintenance services designed to maximize plant efficiency, operational reliability, and equipment life cycle.

Solutions:

- Preventive maintenance
- Corrective maintenance
- Equipment inspection
- Mechanical repair works
- Utility maintenance support
- Annual maintenance contracts

Shutdown & Turnaround Services

We provide specialized shutdown and turnaround support services for refineries, petrochemical facilities, and industrial plants with rapid mobilization and efficient execution capabilities.

Services Include:

- Plant shutdown planning & execution
- Emergency maintenance
- Turnaround support
- Overhaul activities
- Mechanical manpower deployment
- Time-critical maintenance operations

Scaffolding Solutions

FieldMech delivers safe and efficient industrial scaffolding solutions for maintenance, shutdown, and construction activities.

Capabilities:

- Scaffolding erection & dismantling
- Access platform systems
- Industrial maintenance scaffolding
- Shutdown scaffolding support
- Custom access structures

Sand Blasting & Industrial Painting

We provide advanced surface preparation and protective coating services for industrial assets operating in harsh environments

Services Include:

- Sand blasting
- Surface preparation
- Anti-corrosion coating
- Industrial painting
- Protective coating systems
- Maintenance painting solutions

Industries We Serve

FieldMech Engineering and Construction LLP serve a wide range of industrial sectors including:

OIL & GAS

REFINERIES

POWER PLANTS

CEMENT PLANTS

INFRASTRUCTURE
PROJECTS

MANUFACTURING
INDUSTRIES

INDUSTRIAL
WAREHOUSES

CHEMICAL
INDUSTRIES

PETROCHEMICAL
PLANTS

Why Fieldmech

Technical Expertise

Strong engineering capabilities supported by skilled manpower and practical industry knowledge

Safety-Driven Culture

Strict adherence to industrial safety standards, risk management, and compliance protocols

Timely Delivery

Efficient planning and execution strategies to ensure projects are completed within committed timelines

Quality Execution

Commitment to delivering projects with precision, durability, and operational excellence

Client-Centric Approach

Focused on building long-term partnerships through trust, transparency, and performance

Experienced Leadership

Led by an industry veteran with international project execution experience across Kuwait and the Middle East

Safety & Quality Commitment

At FieldMech Engineering and Construction LLP, safety and quality are fundamental to every project we undertake. We believe that operational excellence can only be achieved through disciplined execution, robust safety practices, and strict quality control systems.

Our teams follow industry-standard safety procedures, professional engineering practices, and continuous monitoring systems to ensure reliable project delivery while protecting people, assets, and the environment.

Our Future Vision

FieldMech Engineering and Construction LLP is committed to expanding its operations across India while establishing a strong presence in industrial engineering, maintenance, and infrastructure sectors.

Our long-term goal is to become a recognized engineering and construction partner for leading industrial organizations by delivering globally benchmarked execution standards backed by integrity, innovation, and commitment.
